User Guide

Include screenshots for installation and usage steps with numbered instructions

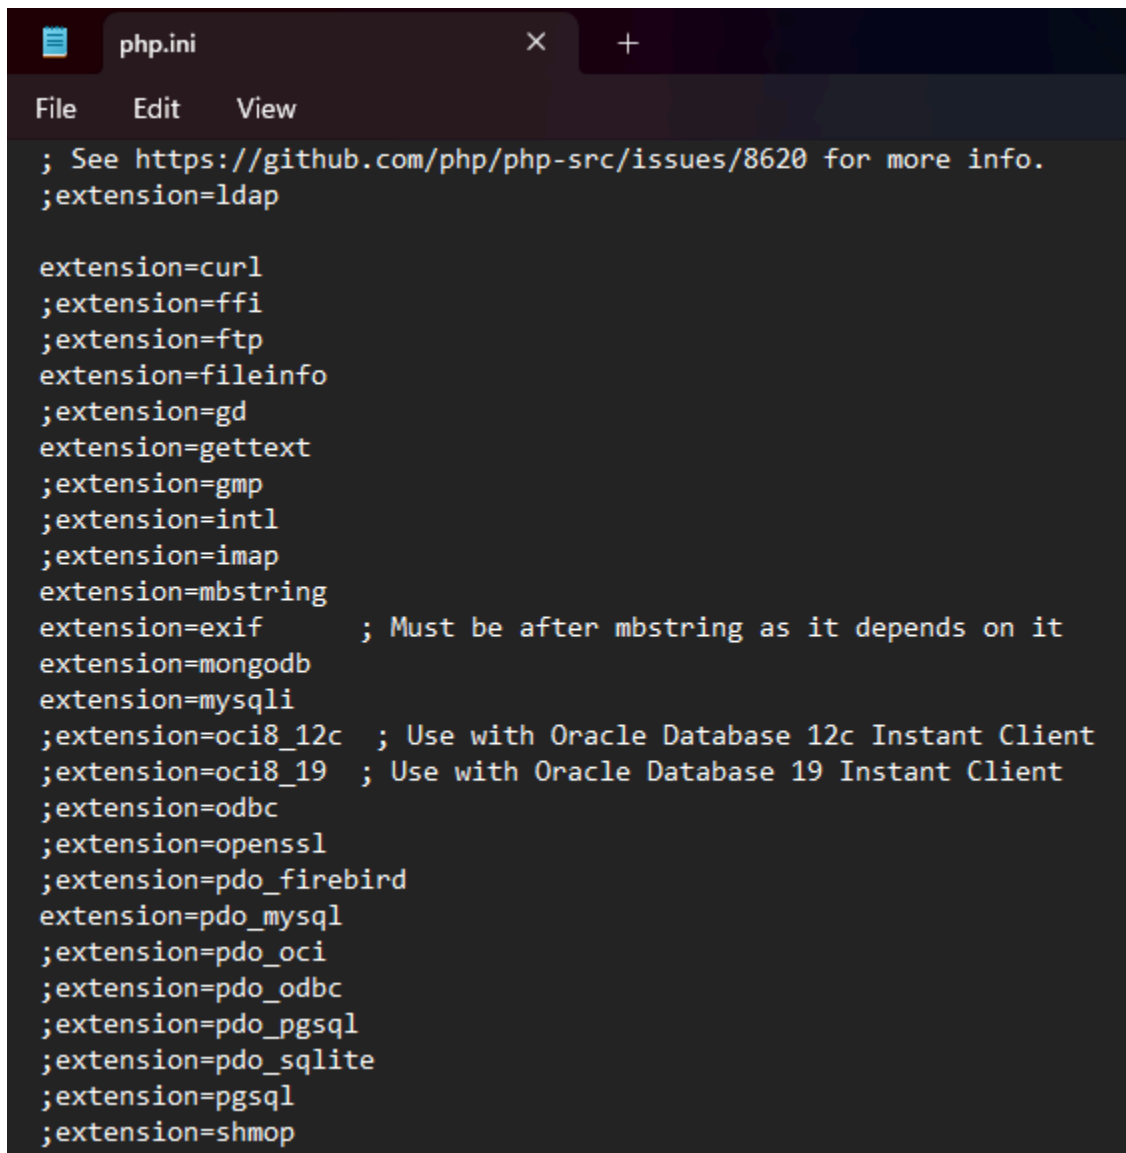

Installation process :

1. Install dependencies such as :
 - a. Visual Studio Code
 - b. PHP
 - c. XAMPP
 - d. Composer
 - e. Node.js
 - f. wkhtmltopdf

After installing Visual Studio Code, in the terminal clone the repository.

2. A. In XAMPP, navigate to search for the ‘ php.ini ‘ file and un-comment or remove the ‘ ; ‘ semicolon symbol in the following :

extension=pdo_mysql , extension=mbstring , extension=gettext , extension=fileinfo
extension=exif

```
; See https://github.com/php/php-src/issues/8620 for more info.
;extension=ldap

extension=curl
;extension=ffi
;extension=ftp
extension=fileinfo
;extension=gd
extension=gettext
;extension=gmp
;extension=intl
;extension=imap
extension=mbstring
extension=exif      ; Must be after mbstring as it depends on it
extension=mongodb
extension=mysqli
;extension=oci8_12c  ; Use with Oracle Database 12c Instant Client
;extension=oci8_19  ; Use with Oracle Database 19 Instant Client
;extension=odbc
;extension=openssl
;extension=pdo_firebird
extension=pdo_mysql
;extension=pdo_oci
;extension=pdo_odbc
;extension=pdo_pgsql
;extension=pdo_sqlite
;extension=pgsql
;extension=shmop
```

Figure XX. Inside the php.ini file

B. After running and installing composer go to your PATH in the environment variables, add the bin file of the composer, the bin file may look like this

‘C:\Users\user\AppData\Roaming\Composer\vendor\bin’;

C. After installing Node.js go to your PATH in the environment variables, add the npm and nodejs file, the file may look like this

‘C:\Program Files\nodejs’

There is an option during the installation process to automatically add it to your PATH.

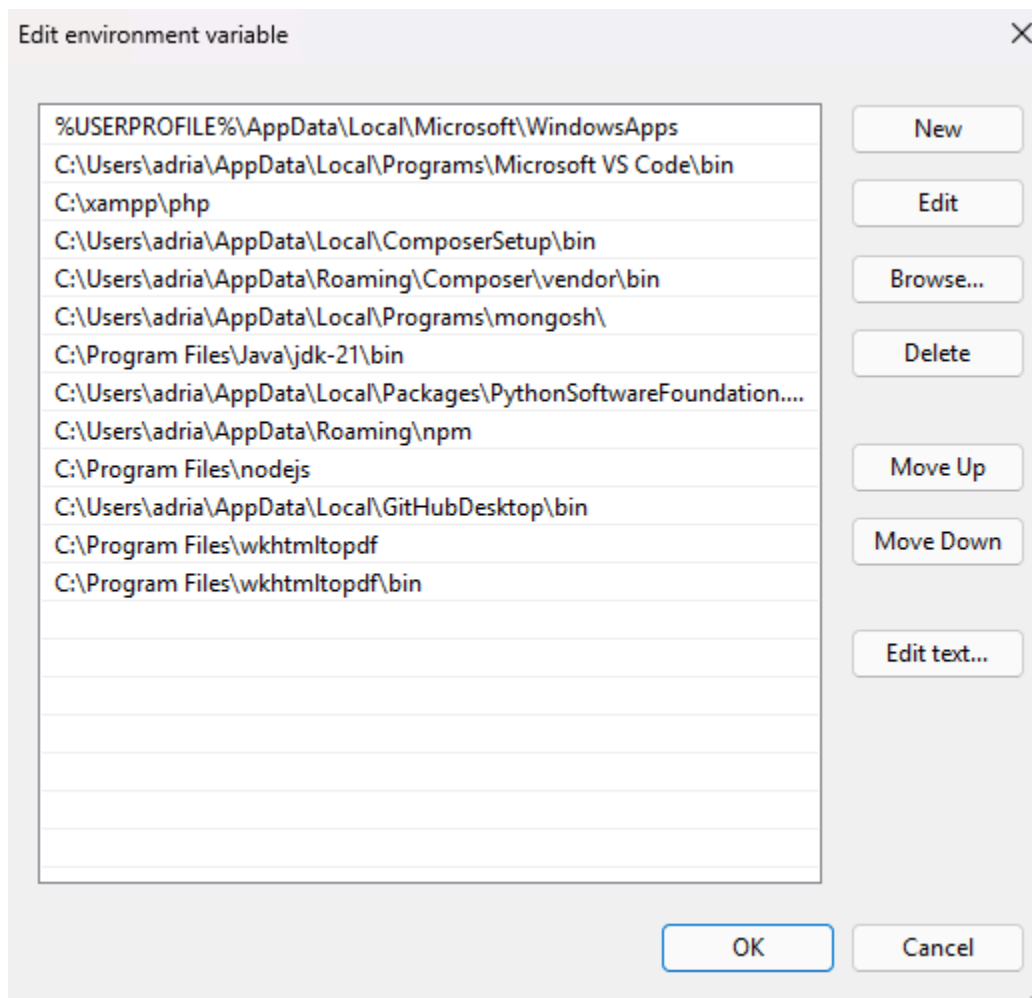

Figure XX. Example of PATH

- To know if *PHP* and Node is successfully installed, type in the cmd or command prompt the following :

‘ php -v ’ , ‘ node -v ’ and ‘ npm -v ’

The it is successfully installed if the version numbers are showing, like the following :

```
PS C:\WINDOWS\system32> php -v
PHP 8.2.4 (cli) (built: Mar 14 2023 17:54:25) (ZTS Visual C++ 2019 x64)
Copyright (c) The PHP Group
Zend Engine v4.2.4, Copyright (c) Zend Technologies
PS C:\WINDOWS\system32> npm -v
10.9.0
PS C:\WINDOWS\system32> node -v
v22.11.0
```

Figure XX. Command prompt result after executing the commands

- Start the Apache and MySQL in the XAMPP

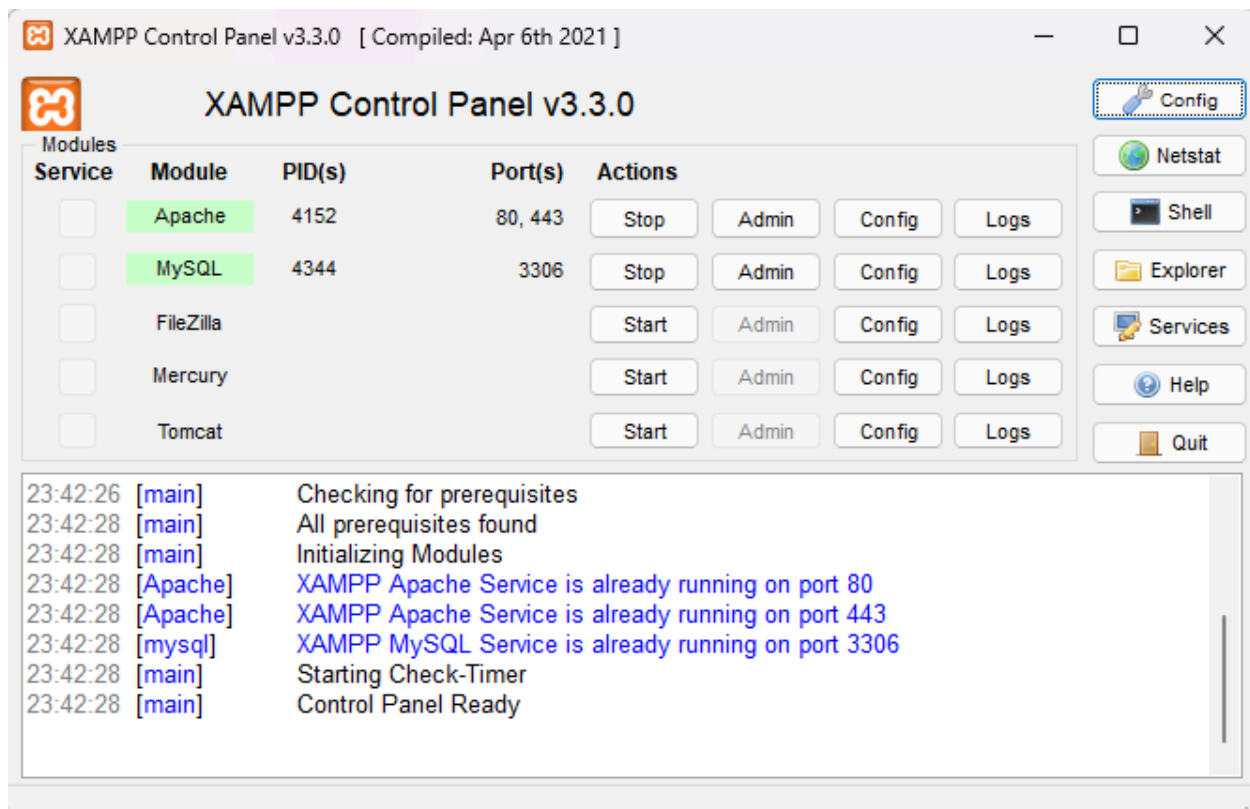

Figure XX. Started XAMPP panel

- Create a database named “ enrollment _sys”

- b. In the Visual Studio Code terminal, assuming you already cloned the repository and is in the file directory, run the following command in order :

1. ' npm run dev '

```
PS C:\xampp\htdocs\LaravelProjects\Enrollment_sys> npm run dev

> dev
> vite

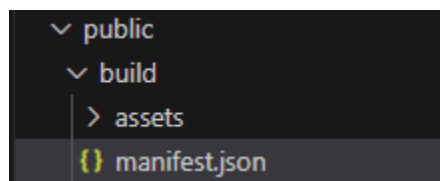

VITE v5.4.11 ready in 286 ms
  → Local:   http://localhost:5173/
  → Network: use --host to expose

VITE v5.4.11 ready in 286 ms
  → Local:   http://localhost:5173/
  → Network: use --host to expose
  → press h + enter to show help

LARAVEL v11.32.0 plugin v1.0.6
  → APP_URL: http://localhost
```

If the result like in the image doesn't show, run this instead :

- ' npm run build '

And it should generate the manifest.json, after this you can run ' npm run dev ' again

2. ' php artisan migrate '
3. ' php artisan db:seed --class=UserSeeder '
4. ' php artisan serve '

```
PS C:\xampp\htdocs\LaravelProjects\Enrollment_sys> php artisan serve
forking is not supported on this platform

INFO Server running on [http://127.0.0.1:8000].

Press Ctrl+C to stop the server

2024-11-18 17:15:16 / ..... ~ 510.93ms
2024-11-18 17:15:16 /favicon.ico ..... ~ 0.09ms
```

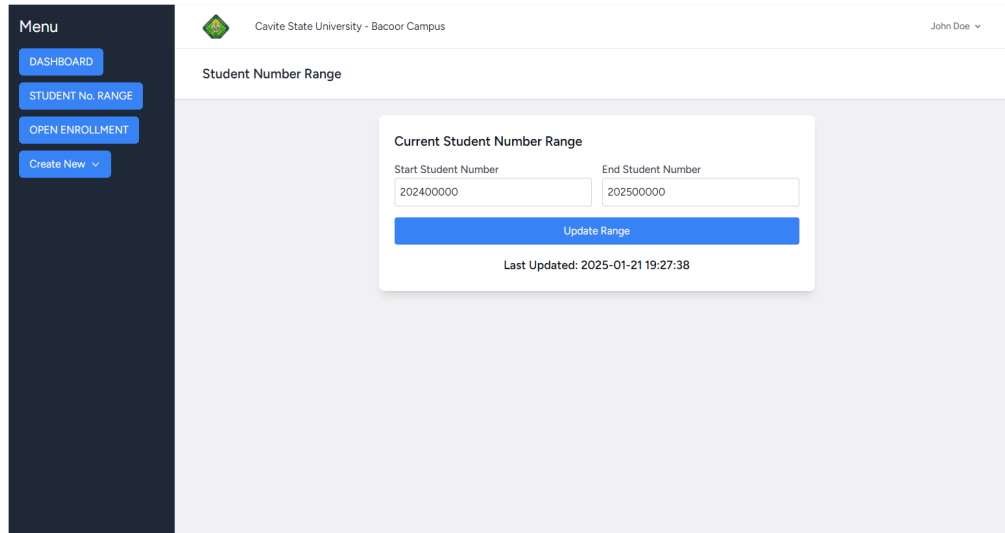

Then just click the link, and it will redirect you to the landing page of the system.

Additional Info :

The wkhtmltopdf is set as a windows executable(.exe) file, In case of the deployment of the system into a hosting server running other operating system other than windows, such as Linux, change the wkhtmltopdf file according the operating system version, and change the code referencing the file in the source code.

ADMIN USER:**Student No. Range Page**

The Student No. Range Page allows Admin users to view and edit the range of student numbers.

Editing the Student Number Range

Current Student Number Range

Range updated successfully!

Start Student Number 202500000 End Student Number 202600000

Update Range

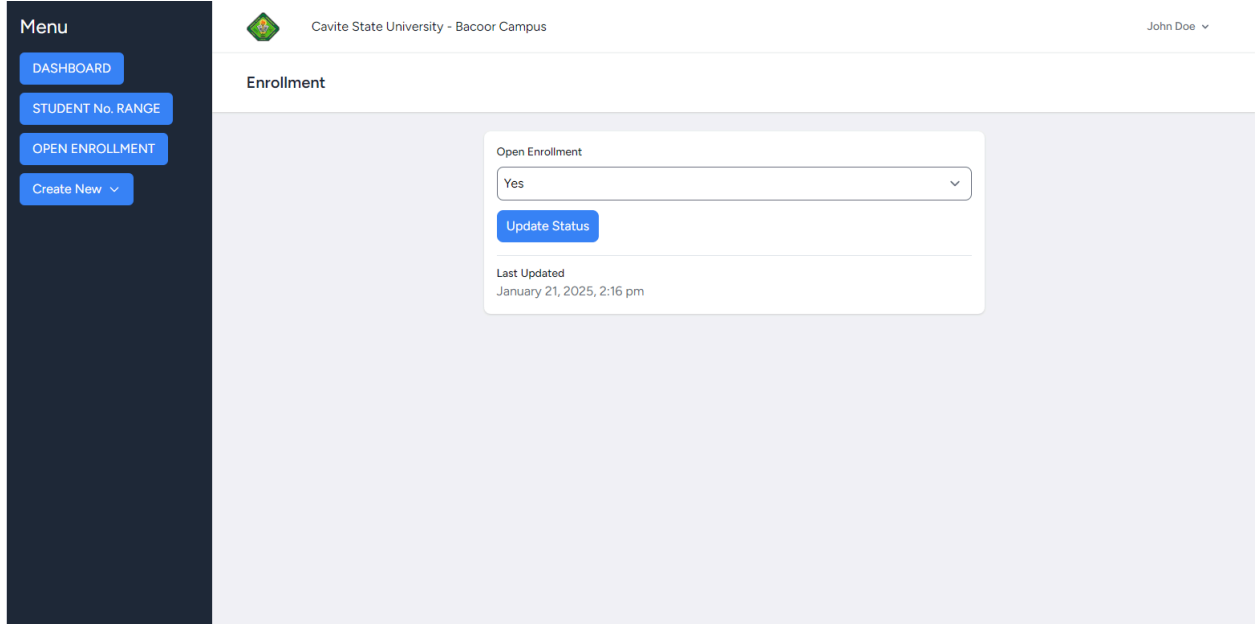

Last Updated: 2025-01-21 22:07:45

1. Navigate to the **Student No. Range Page**.
2. Modify the student number range as needed.
3. Click **Update Range** to save changes.

Open Enrollment Page

The Open Enrollment Page allows Admin users to toggle the enrollment status of the system.

Changing the Enrollment Status

The screenshot displays the 'Open Enrollment' page. On the left is a dark sidebar menu with options: DASHBOARD, STUDENT No. RANGE, OPEN ENROLLMENT (highlighted), and Create New. The top header shows the Cavite State University - Bacoar Campus logo and the user 'John Doe'. The main content area is titled 'Enrollment' and contains a form. The form has a dropdown menu for 'Open Enrollment' currently set to 'Yes', an 'Update Status' button, and a 'Last Updated' timestamp of 'January 21, 2025, 2:16 pm'.

Enrollment status updated successfully.

Open Enrollment

No

Update Status

Last Updated
January 21, 2025, 10:32 pm

1. Navigate to the **Open Enrollment Page**.
2. Select the desired status from the dropdown menu (Yes/No).
3. Click **Update Status** to save changes.

Course Page

The Course Page allows Admin users to manage courses in the system. The available functionalities include creating, editing, and deleting courses.

Creating a Course

The screenshot shows the 'Courses' management page. On the left is a dark sidebar menu with options: DASHBOARD, STUDENT No. RANGE, OPEN ENROLLMENT, Create New (dropdown), COURSES (selected), USERS, and FEES. The top header displays 'Cavite State University - Bacoor Campus' and a user profile 'John Doe'. The main content area is titled 'Courses' and features a 'Create Course' button. Below this is a search bar with the placeholder 'Search by course name or code' and two filters: 'Filter by Course Type' (set to 'All') and 'Filter by Year Level' (set to 'All'). A 'Search' button is to the right. The table below lists courses for the 'FIRST YEAR' and 'First Semester'. The table has columns for Course Name, Course Code, Prereq., Lec_Units, Lab_Units, Lec_Hours, Lab_Hours, Course Type, and Actions (Edit/Delete).

Course Name	Course Code	Prereq.	Lec_Units	Lab_Units	Lec_Hours	Lab_Hours	Course Type	Actions
PURPOSIVE COMMUNICATION	GNED 05		3	0	3	0	CS	Edit Delete
KONTEKTUWALISADONG KOMUNIKASYON SA FILIPINO	GNED 11		3	0	3	0	CS	Edit Delete
DISCRETE STRUCTURE 1	COSC 50		3	0	3	0	CS	Edit Delete
INTRODUCTION TO COMPUTING	DCIT 21		2	1	2	6	CS	Edit Delete

1. Navigate to the **Course Page**.
2. Click the **Create Course** button.
3. Fill out the course details in the form provided:
 - **Course Name:** Enter the name of the course (e.g., "Introduction to Programming").
 - **Course Code:** Assign a unique code to the course (e.g., "CS101").
 - **Prerequisites:** Specify any prerequisite courses or leave blank if none.
 - **Lecture Units:** Enter the number of lecture units.
 - **Lab Units:** Enter the number of lab units.
 - **Lecture Hours:** Specify the weekly lecture hours.
 - **Lab Hours:** Specify the weekly lab hours.
 - **Year Level:** Select the target year level
 - **Semester:** Choose the semester
 - **Course Type:** Select the course type (e.g., CS, IT).
4. Click **Create** to create the course.

Fees Page

The Fees Page allows Admin users to manage fee structures. The available functionalities include creating, editing, and deleting fees.

Creating a Fee

The screenshot shows the 'Fees' management page. On the left is a dark sidebar menu with options: DASHBOARD, STUDENT No. RANGE, OPEN ENROLLMENT, Create New (dropdown), COURSES, USERS, and FEES. The main header shows 'Cavite State University - Bacoor Campus' and a user profile 'John Doe'. Below the header, the 'Fees' section has a 'Create Fee' button. A table lists existing fees:

Fee Name	Amount	Last Updated	Actions
com_lab	150.00	2025-01-21 14:20:57	Edit Delete
nstp	100.00	2025-01-21 14:19:21	Edit Delete
tuition	100.00	2025-01-21 14:19:27	Edit Delete
Total Amount: 350.00			

The URL at the bottom is <https://plum-fox-590535.hostingersite.com/admin/fees>.

1. Navigate to the **Fees Page**.
2. Click the **Create Fee** button.
3. Fill out the fee details in the form provided:
 - a. **Fee Name**: Enter the name of the fee (e.g., "Tuition Fee").
 - b. **Amount**: Specify the fee amount.
4. Click **Create** to create the fee.

Editing an Existing Fee

The screenshot shows the 'Edit Fee' form. The sidebar menu is the same as in the previous screenshot. The main header shows 'Cavite State University - Bacoor Campus' and 'John Doe'. Below the header, the 'Edit Fee' section contains a form with two input fields: 'Fee Name' (containing 'com_lab') and 'Amount' (containing '150.00'). An 'Update' button is located below the form. The URL at the bottom is <https://plum-fox-590535.hostingersite.com/admin/fees>.

1. Navigate to the **Fees Page**.
2. Locate the fee to edit from the list.
3. Click the **Edit** button on the action column.
4. Modify the required fields.
5. Click **Update** to save changes.

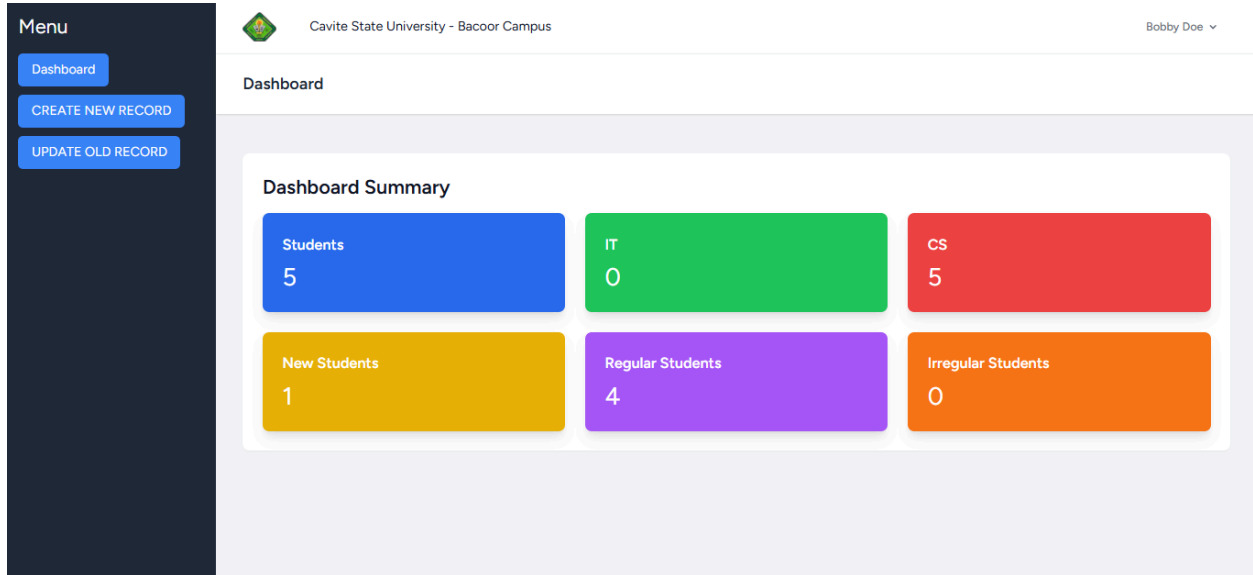

Deleting a Fee

The screenshot shows the 'Create Fee' form within the Cavite State University - Bacoor Campus admin interface. On the left is a dark sidebar menu with options: DASHBOARD, STUDENT No. RANGE, OPEN ENROLLMENT, Create New (with a dropdown arrow), COURSES, USERS, and FEES. The top header bar includes the university logo, name, and a user profile 'John Doe'. The main content area is titled 'Create Fee' and contains two input fields: 'Fee Name' and 'Amount'. A blue 'Create' button is positioned below the 'Amount' field. The browser's address bar at the bottom shows the URL: https://plum-fox-590535.hostingersite.com/admin/fees.

1. Navigate to the **Fees Page**.
2. Locate the fee to delete from the list.
3. Click the **Delete** button on the action column.

OFFICER USER:

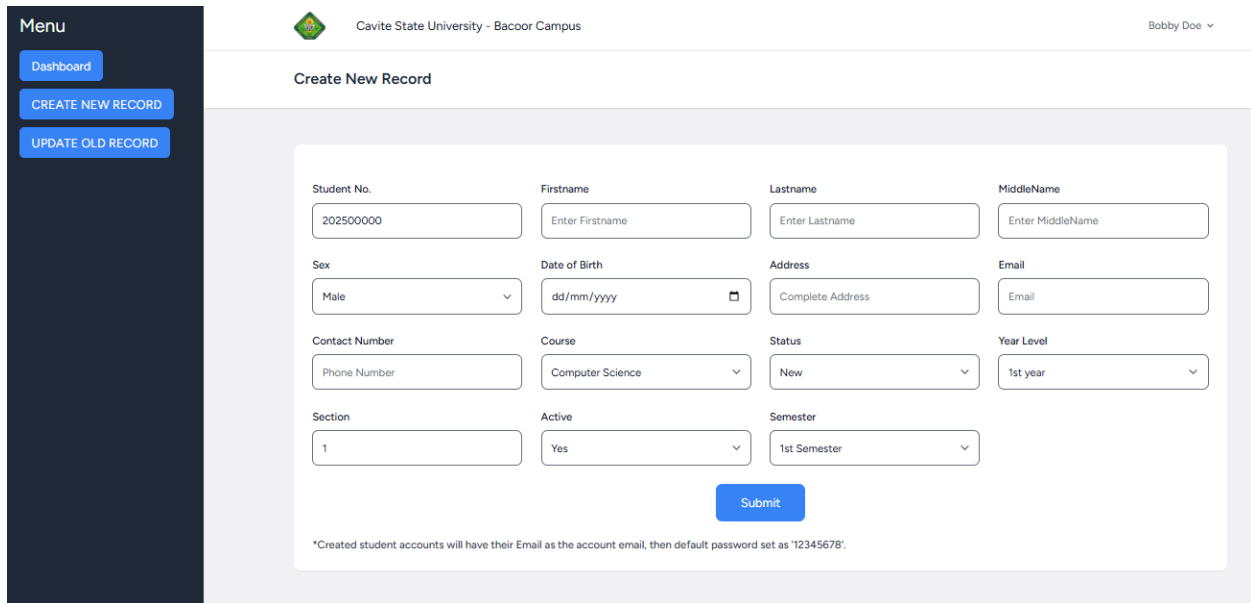

1. Dashboard Overview

Upon logging in, the Officer user is presented with a dashboard that displays key metrics:

- **Total Number of Students**
- **Number of Information Technology Students**
- **Number of Computer Science Students**
- **Number of New Students**
- **Number of Regular Students**
- **Number of Irregular Students**

2. Creating a Student Record

Menu

- Dashboard
- CREATE NEW RECORD
- UPDATE OLD RECORD

Cavite State University - Bacoor Campus

Bobby Doe ▾

Create New Record

Student No. 202500000	Firstname Enter Firstname	Lastname Enter Lastname	MiddleName Enter MiddleName
Sex Male ▾	Date of Birth dd/mm/yyyy 📅	Address Complete Address	Email Email
Contact Number Phone Number	Course Computer Science ▾	Status New ▾	Year Level 1st year ▾
Section 1	Active Yes ▾	Semester 1st Semester ▾	

Submit

*Created student accounts will have their Email as the account email, then default password set as '12345678'.

- 1) Fill in the required fields:
 - a) Firstname
 - b) Lastname
 - c) Middlename *optional
 - d) Sex/Gender
 - e) Date of Birth
 - f) Address
 - g) Email Address
 - h) Contact Number
 - i) Course
 - j) Status(New, Regular, Irregular, Transferee)
 - k) Year Level
 - l) Section
 - m) Active
 - n) Semester
- 2) The system will:
 - a) **Auto-generate a student number** within the range specified by the Admin user.
 - b) **Assign a section automatically** based on predefined rules.
- 3) Click **Submit** to save the student record.
- 4) Created student accounts will have their Email as the account email, then default password set as '12345678'.

5) If the Open Enrollment status is “No” which means you can’t create new student record

The screenshot shows the 'Enrollment' page. On the left is a dark sidebar menu with buttons: 'DASHBOARD', 'STUDENT No. RANGE', 'OPEN ENROLLMENT', and 'Create New'. The top header bar includes the Cavite State University - Bacoor Campus logo, the name, and a user profile 'John Doe'. The main area is titled 'Enrollment' and contains a white box with the following elements:

- A label 'Open Enrollment' above a dropdown menu currently showing 'No'.
- A blue button labeled 'Update Status'.
- A section labeled 'Last Updated' with the timestamp 'January 21, 2025, 10:36 pm'.

And the Create New Record will look like this.

The screenshot shows the 'Create New Record' page. The sidebar menu includes 'Dashboard', 'CREATE NEW RECORD', and 'UPDATE OLD RECORD'. The header bar shows the university name and a user profile 'Bobby Doe'. The main area is titled 'Create New Record' and contains a form with the following fields:

- Student No. (text input: 202500000)
- Firstname (text input: Enter Firstname)
- Lastname (text input: Enter Lastname)
- MiddleName (text input: Enter MiddleName)
- Sex (dropdown: Male)
- Date of Birth (text input: dd/mm/yyyy with a calendar icon)
- Address (text input: Complete Address)
- Email (text input: Email)
- Contact Number (text input: Phone Number)
- Course (dropdown: Computer Science)
- Status (dropdown: New)
- Year Level (dropdown: 1st year)
- Section (text input: 1)
- Active (dropdown: Yes)
- Semester (dropdown: 1st Semester)

Below the form, a red message states: **Enrollment Closed**. At the bottom, a small note reads: '*Created student accounts will have their Email as the account email, then default password set as '12345678'.'

3. Searching for Students

Officer users can search for students using the following criteria:

- Student Number
- Last Name
- Section
- Course
- Year Level

Use the search bar to enter your query and view the results.

The screenshot shows the 'Update Old Records' page. On the left is a dark sidebar menu with 'Dashboard', 'CREATE NEW RECORD', and 'UPDATE OLD RECORD' buttons. The main header includes the Cavite State University - Bacoor Campus logo and the user name 'Bobby Doe'. The 'Update Old Records' section contains a 'FILTER BY:' area with input fields for Student No., Student Lastname, Course, Year Level, and Section, along with a 'Search' button. Below the filters is a table of student records.

Student No.	Firstname	Lastname	Course	Status	Year Level	Section	Semester	Active	Action
1	Adrian Noel	Cardenas	CS	New	1	1	1	Y	Edit Enroll
2025000	John	Doe 2	CS	Reg	1	1	2	Y	Edit Enroll
202211670	Krishan Isabelle	Avellano	CS	Reg	3	1	1	Y	Edit Enroll
202211824	Neil Kristoffer	Orca	CS	Reg	3	1	1	Y	Edit Enroll
202211648	Mike	Aguado	CS	Reg	4	3	2	Y	Edit Enroll

At the bottom of the table is a pagination control showing '< 1 >'.

4. Editing Student Information

- Locate the student using the search functionality.
- Click the **Edit** button next to the student record table.
- Update the necessary fields, such as name, email, or other details.
- Click **Save Changes** to confirm changes.

The screenshot shows the 'Edit Student' form. It contains the following fields and controls:

- First Name:** Text input with value 'Neil Kristoffer'.
- Last Name:** Text input with value 'Orca'.
- Course:** Dropdown menu with value 'Computer Science'.
- Semester:** Dropdown menu with value '1st Semester'.
- Active:** Radio buttons for 'Yes' (selected) and 'No'.
- Status:** Dropdown menu with value 'Regular'.
- Section:** Text input with value '1'.
- Year Level:** Dropdown menu with value '3rd year'.

At the bottom are two buttons: 'Cancel' and 'Save Changes'.
