

NEIL KRISTOFFER S. ORCA

BS in Computer Science

656 Santero Subd., Habay 1, Bacoar City, Cavite, Philippines | 0908 251 5465 | orcaneil9@gmail.com

EDUCATION :

• **Cavite State University – Bacoar Campus**

College, 2022–2026

Thesis: Web Based Driven HIV Patient Record, Case Tracking And Treatment Access System For LoveYourself HIV Treatment Hubs

• **Theresian School of Cavite**

Senior High School, 2020–2022

EXPERIENCE :

GreyWolf Technologies (Internship)

Makati City, Metro Manila, 2025

- Designed a template for a Professional Organization Membership Web Application during the 240-hour internship. Served as the frontend developer responsible for creating a visually structured and logically organized user interface.
- Improved problem-solving skills, critical thinking, and technical competence in web development.
- Collaborated with mentors and teammates through discussions, consultations, and feedback sessions to align the project with its objectives.

PROJECTS :

Enrollment System in Cavite State University Bacoar Campus (Academic Project)

- Developed a web-based enrollment management system with separate access for administrators, registrars, and students. Technologies used: Laravel, MySQL, Tailwind CSS.

E-commerce Website – SukiKart (Academic Project)

- Created an e-commerce platform that allows customers to browse and purchase products online while enabling administrators to manage listings and orders. Integrated PayPal Sandbox for secure checkout and payment processing. Technologies used: Laravel, MySQL, Tailwind CSS, PayPal Sandbox.

Web Based Driven HIV Patient Record, Case Tracking And Treatment Access System For LoveYourself HIV Treatment Hubs (Undergraduate Thesis / Capstone Project)

- Web-based HIV patient record, case tracking, and treatment access system with secure data handling, database integration, and AI chatbot support for real-time educational responses.

PROJECTS :

Front-End: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript

Back-End: Django (Python), Laravel (Php)

Database: MySQL, SQLite

DevOps & Cloud: Docker, Heroku, Pythonanywhere

Tools & Others: Git, GDScript (Godot Game Engine)
